Legal Rights and Responsibilities

While reading Section IV - Legal Duties and Responsibilities, I noticed several sentences that seemed contradictory. For example, "A teacher may exclude from the teacher's classroom or activity area any student who creates a disruption..." and "No form of discipline shall be enforced in such a manner as to prevent a student from accomplishing specific academic grade...requirements." How do I interpret contradictions like this in a way that supports my students *and* myself?

In general, what instances am I most likely to encounter? With what instances do I need the most caution?
